Twentieth—That county committee be empowered to fill all vacancies.

Twenty-first-We further recommend that a majority of the votes cast be required to nominate.

This report was adopted and then hairman Critchlow steppe front of the platform and addressed the convention. The address in full will be found in another column. When Chairman Critchlow had con-

the committee on platform, William Nelson, submitted its through Teport, which was unanimously adopted. The platform will be found elsewhere in this edition. It was read by Joseph Lippman, who, when he had finished moved its adoption, which was done by a unanimous vote. Then a recess was a unanimous vote. Then a rectaken until 1:30 o'clock p. m.

Proceedings of Afternoon Session

At 1:45 Chairman Critchlow rapped for order. Only a few delegates were in the hall, but after repeated rapping

the delegates took their places and the convention was in order.

Vice-President Dangherty assumed the duties of the chair. Mr. Critchlow being a candidate for the Senate, he desired to be on the floor of the convention during the nominations and substing. balloting.

music by the hand, Vice-President Daugherty announced nominations of candidates for the State Senate in

Horace Dunbar secured the floor and Horace Dunbar secured the floor and gave the convention the name of Charles B. Jack. Mr. Dunbar said the American party will elect three senators this year, and those nominated must be men of high learning and whose Americanism cannot be doubted. Those qualifications Mr. Jack possessed, and, if nominated, he would be elected.

elected.

H. J. Dininny named George Jay Gibson. Judge Dininny said that four years ago when the American party was organized and they walked the streets to find some one who would accept nomination on the ticket, all knew that whoever was nominated would be defeated. One of those who accepted a nomination then was George Jay Gibson, and he made a house-to-house can son, and he made a house-to-house can-vass during the campaign, and no man was more interested in the success of the first American ticket than Mr.

E. B. Critchlow was nominated by B. B. Heywood. Mr. Heywood said his candidate was well known and had been prominent in the movement of the American party from its beginnin- As speeches were limited to two minutes, that was not sufficient time to allow him to enumerate all the palifications of Mr. Critchlow.

AMERICAN PARTY COUNTY PLATFORM

The American party appeals to the people of Salt Lake county this year against ecclesiastical control in politics, against supporting a criminal class of law-defiers; and for individual freedom. It does this on principle, on love of country, on business lines, and for political liberty and purity. It shows that the present country administration is unworthy of public support, in that it is tained with graft, with the use of public position for personal and partisan ends, rather than being devoted to the interests of the people. It has, at large and useless expense, made a victous political warfare upon the city, and has fought one class and portion of the community with money contributed through taxation by all. It has trifled with justice and with the courts by entering into criminal collusion with notorious crooks and thieves, sustaining them at the public cost for long periods of time. under a nominal arrest, and finally discharging them without bringing them to trial, though their guilt was well known. It did this in order to use these criminals as witnesses in a pretended criminal prosecution for political purposes, ostensibly directed against an individual, but meant and used in fact only for partisan ends. It appointed at the public charge a swarm of needless deputies at the bond election in this city in July, under the false pretense that some disorder or lawlessness had been planned at that election, which pretense was wholly untrue. It has more recently made itself active in a pretended effort to purify this city, while altogether neglecting in this partisan spasm of assumed morality, the county outside of the city; the whole activity being merely for political effect, as is evident from the facts and the record. At the same time the city court, under the occupancy of an official of the same party which pretends such concern for the moral welfare of the city, thwarts the best efforts of the police department to deal with the criminal classes.

We unequivocally denounce the proposition to establish a red light district in any part of Salt Lake City, and expressly protest against the establishment of such a district in the west side of the city, as now projected by persons holding authority from the State officials so to do; and we pledge the best efforts of this party to prevent the location of said district as proposed, there or elsewhere. We please the citizens of Salt Lake that we will use every legal, moral, and party power to prevent the establishment of said district, and to prosecute all parties connected with said project in both the civil and criminal courts of this district. We denounce the recent action of the sheriff of this county as both an imposture and a pretense, and declare that his purpose is not for the betterment of moral conditions, but vather to advance the interests of the political party with which he is af-

We commend the American administration of Salt Lake City for its action in suppressing public gambling. and pledge our nominees, when elected, to complete the eradication of this vice from every part of the county, in so far as their authority may extend

Salt Lake City, under the benign administration of the American party, resents the effort of the county officials, put forth for political purposes, to besmirch the fair fame and good record of the city. It points with the pride of high accomplishment to the mighty benefits conferred here by the American ascendance, in the wonderful accessions to our population, in the increase of wealth, and in the splendid building activity here during the season just closed; this in triumph over the financial depression which has so severely hindered the progress of other cities. And the American party control of this county would undoubtedly extend and widen the benefits of American administration accordingly.

In Salt Lake City the Americans have shown their capacity and energy in excellent street-making. The public improvements made by the American party since its accession to power, have been equal to all the public improvements ever before made in this city since its settlement. Salt Lake county is in need of some of this energy and capacity, and it will be the intent, of the American party to lead in the work of thus developing the county's magnificent resources. And in order to make the mine, the mill, and the farm accessible to the centers of industry and commerce, we pledge ourselves to the speedy improvement of the highways that lead to and from the mining districts, the mills and smelters, and from the agricultural sections to the towns and cities. We deplore the fact that the present county administration has wastefully expended thousands of dollars to construct and maintain highways primarily for the purpose of improving the properties of favored ones, to the neglect of

the public interests; and that under its incompent management no permanent road betterment is ever obtained. Under the administration of the Republican party, various county offices that formerly yielded rich revenues to their incumbents, have become heavy burdens upon the public, this in the change from the fee system to the salary system. But an office that is largely remunerative to the individual, under the fee system, should also be profitable to the public, with the same fees required by law to be turned into the county treasury. The American party means to inquire into this matter, and remedy the wrong to the people which in this sort of official misfeasance the Republican party has imposed upon them.

There needs to be a house-cleaning in county affairs; the forgeries on the assessment rolls need to be corrected, and the amounts out of which the public has been cheated must be collected so far as this can be done; the juggling with accounts, the startling deficits in offices that formerly yielded large revenues to their holders need to be investigated and explained; and the same is true of the enormous and scandalous wild animal bounty frauds. The incompetent and damaging management of the county finances must be changed for competency and honest methods. It is a well-known fact that corruption and abuses inevitably grow up with the long continuance of any ring of partisans in control. It is time that there were a change, and the American party, in the public interest, proposes to make the needed change this year, ousting the old and foul and putting in the clean and new. this effort for cleansing and for progress we invite the co-operation of every public-spirited citizen.
